

The SENTINEL bids its readers, one and all, a Merry Christmas. And we sincerely hope that this will prove a Merry Christmas to the majority of our readers. Without doubt the people of Yuma county should feel happy this day, for the days of gloom have passed, as our county is now making giant strides towards prosperity and agricultural greatness. The mining and agricultural enterprises of Yuma county are all flourishing and give hope of even greater results in the near future.

Yuma gives promise of becoming the "Los Angeles" of Arizona.

Reflection is the sun that expands the little seeds of mighty thoughts.

Advertise the wonderful resources of Yuma county, and our population will be quadrupled within six months.

The colored people of South Carolina own ten millions in property, while in Louisiana they pay taxes on thirty millions.

The personal friends of ex-President Arthur are trying to raise \$250,000 for a bronze monument above his grave. The first day's subscription was \$42,000.

A general army order has been issued attaching Southern California to the Department of Arizona under the command of General Nelson A. Miles removing his headquarters from Prescott, A. T., to Los Angeles, Cal.

There were 6,076 children enrolled in the public schools of Arizona for the year 1885-6, against 4,974 in the preceding year. The average daily attendance was 3,507. The average salary of male teachers was \$80.45; of females, \$76.18.

Dakota is on dress parade again as a State, threatens to go it alone, anyhow, and defy the territorial government provided by law. The older children propose to have something to say about any increase in the family of States, as Dakota will discover when she tries to take a seat.

The "Aurora Borealis," a new magazine published by Bacon & Co., of San Francisco, is at hand. The publishers have reason to be proud of the literary material given, but the attempt to mix reading and advertising matter will not prove popular among the class of readers patronizing monthlies.

The grand jury presented an indictment this morning against the editor of this paper for malicious libel, the complaining witness being James A. Bayard, Secretary of the Territory. A warrant of arrest was served by Sheriff Mulvenon, and we are now out on our own recognizance to "face the music" in the District court.—Journal Miner.

The January number of "Arthur's Home Magazine" has been received, published by T. S. Arthur & Son, Philadelphia. This is the thirty-fifth year of its publication and each year the Magazine gains in popularity. Arthur's Magazine is a home journal in every sense of the expression and merits the immense patronage that it receives. Price \$2 per year.

The peaceful attitude of Europe, so a special dispatch says. This looks very much like it. Russians have 2,000,000 of men in arms, Germany 2,500,000, France 3,000,000, Austria-Hungary 770,000. This looks like a peace footing. What will they turn out in time of war. The United States take the cake in time of peace, with her twenty thousand troops, 17,000 of officers, 1,000 commissary sergeants, 500 negro troops, 500 Apache scouts, 500 white soldiers sick in hospitals, and 500 deserters and still we are on a war basis.—L. A. Advocate.

Certain propositions are represented to be made looking to the establishment of a cotton factory here. There is one at East Oakland, California, which is doing a large business, and is represented as making money. Most of the raw material is brought from Texas. A little is grown in Merced county where it does well. The cotton plant will grow in Fresno, in Tulare and Kern. It will do well there in Los Angeles. Herald.

# A YUMA ENTERPRISE.

M. J. Nugent, Sheriff-elect of Yuma county, Arizona, is in town. Mr. Nugent is one of the stockholders in the Mohawk Canal Company, whose scene of operations is about eighty miles east of Yuma, on the Southern Pacific railroad.

Yuma has heretofore been regarded by the outside public as a connecting link between this world and the region described by Dante. The gentlemen connected with this canal enterprise intend however, to show that Yuma county is more nearly related to the Paradise than to the lower regions. The Mohawk canal covers 40,000 acres of fertile land, on which it is claimed that lines as big as Riverside oranges and oranges as big as hats can be raised, and moreover, that all fruit can be ripened from six to eight weeks earlier than in California. A Boston syndicate has recently acquired control of the enterprise and is pushing work as fast as possible.

This undertaking which is looked upon by the originators as the beginning of a big boom for the horticultural resources of Arizona, will be watched with much interest by the fruit growers and others in this section.—L. A. Times.

Professor Williams returned yesterday from the Ellsworth mining district in Yuma county. The ten stamp mill of the Harris Milling & Mining Co. was started up on Monday last with very good success. They have an abundance of ore on the dump and in sight which will average all the way from \$8 to \$15 per ton in gold. The cost of mining and getting to the mill will not exceed \$4 for ton, while the price of milling is reduced to the minimum. Wood is only \$3 per cord laid down at the mill.

He says there are sixty veins within a radius of four miles averaging from eight inches to eight feet in width the ore running from \$5 to \$10 per ton.

On many of the claims located in the district there are no less than three good veins of ore. He predicts a bright future for the district.—Journal Miner.

The last statement of the public debt reports \$3,005,250 paid off in November. As a matter of fact there was \$15,694,450 paid off in that month, that being the amount of 3 per cent bonds cancelled in November. The total amount of 3 per cent bonds out on the 30th November was \$71,154,250. But on the very next days \$10,000,000 of this amount was paid off or turned over to the matured debt account on which interest has ceased. There is now only \$61,154,250 in these bonds out. Enough have been cancelled in the last six months to satisfy the Sinking Fund for the fiscal year of 1886-87, and more calls are expected for the next six months. This will prolong the life of the 3 per cent bonds eighteen months, and thus throw over all legislation touching the tariff and the banks to the next Congress, which will convene in December, 1887.

The dreadful pleuro-pneumonia has reached the Texas herds of cattle through the importation of several Jerseys from Indiana, and the stockmen of that state are in a state of wild excitement and alarm. They are almost helpless in the paralysis of their conservation and by the absence of proper quarantine laws, it is almost certain that the disease will obtain a foothold that will defy their best efforts to eradicate before measures can be perfected to meet the stern emergency. In the deplorable experience that seems to be inevitable among our Texas neighbors our own cattle men should read a valuable lesson, and they should be prepared to promptly meet any exigency that arises. The disease is now uncomfortably close to our own herds and no time should be lost in taking the proper precautions against the introduction of the fatal malady.—Citizen.

Germany, while claiming to hold a monometallic policy, reports \$76,600,000 in silver in its treasury, almost equaling its amount in gold; while England, nominally maintaining a gold standard, exported, during the nine months ending Sept. 30, \$26,400,443 in silver to India alone; which would be at the rate of \$35,200,591 per annum, and during the same period, imported nearly \$30,000,000 in silver for use principally as currency. A reference to these, and other ready available facts, not only show the falsity and absurdity of the positions taken by those claiming to be the ablest financiers of the country but also show that those nations claiming to have adopted the monometallic policy have done so only in name, as it has never been possible since the earliest history of commercial transactions to conduct the business of the world without the employment of a quantity of silver as currency largely exceeding that of the gold.—Mining Review.

It is announced that our Mexican sister republic in the southeast has adopted a constitutional amendment abolishing inter-state duties on imports. This which is at once foreign and domestic news, is the most significant item of intelligence which has passed over the wires for many a day. It means a new day in the commercial intercourse between the United States and Mexico, with millions in it for our American manufacturers; but, what is of far more consequence, it means an era of progress for Mexico. That country has shared only in the faintest and most remote degree in the fruits of modern thought and inventions, and the surprise is that, which its series of Chinese walls and Tariffa castles manned by robbers, under the guise of custom house officers, it got on as well as it did. One has only to imagine this country cursed with a cordon of custom-houses all along every State border taking toll of every consignment of goods at each State line crossed to form an idea of the condition of Mexico and the reason it has thus far been pitifully destitute of the comforts of life.

There is just a possibility that sugar growing may become one of the important industries of California. Our neighbor, Louisiana, is the only considerable grower of cane sugar. She is also a large producer of tropical fruits, so that there is a bond of union between the two states; neither wants the duty on sugar reduced, nor reciprocity treaties admitting subtropical products. Nevertheless, it is probably in this direction that a reduction of the revenue will be sought. Senator Sherman favors the reduction because it will be felt only by one State, and that a Democratic State. There may be enough Democrats together with Republicans of Sherman's way of thinking to accomplish the reduction.—S. F. Post.

The bill introduced into the lower house by Mr. White of Pennsylvania for the free coinage of silver, provides that holders of silver bullion may have the same coined into standard dollars of 412½ grains on the same terms as apply to the coinage of gold; that the silver dollar shall be a unit of account and a standard of value, in like manner as in now provided for the gold dollar, and shall be full legal tender; it also provides that the secretary of the treasury, instead of coining all the silver bullion presented, shall exchange therefor silver dollars, or certificates, coining only so much bullion as the needs of the country may require.

Army people say that Mrs. Crawford, the widow of Captain Crawford, United States Army, the gallant officer who, it is believed, was needlessly sacrificed on the Mexican border, is the original of Captain King's "Mrs. Stannard," who has become well known through the pages of "Marion's Faith" and "The Colonel's Daughter."—Bulletin.

## FAULTLESS FAMILY MEDICINE

"I have used Simmons' Liver Regulator for many years, having made it my only Family Medicine. My mother before me was very partial to it. It is a safe, good and reliable medicine for any disorder of the system, and if used in time is a great preventive of sickness. I often recommend it to my friends, and shall continue to do so."

"Rev. James M. Rollins, 'Pastor M. E. Church, So. Fairfield, Va.' TIME AND DOCTORS' BILLS SAID BY always keeping Simmons' Liver Regulator in the house."

"I have found Simmons' Liver Regulator the best family medicine I ever used for anything that may happen, have used it in Indigestion, Colic, Bile, Biliousness, and found it to relieve immediately. After eating a hearty supper, if on going to bed, I take about a teaspoonful, I never feel the effects of the supper eaten."

"OVID G. SPARKS, 'Ex-Mayor Macon, Ga.' ONLY GENUINE. Has our Stamp on front of Wrapper. J. H. Zeilin & Co., Sole Proprietors, Price, \$1.00. PHILADELPHIA, PA."

Obtained and all PATENT BUSINESS attended to PROMPTLY and for MODERATE FEES.

Our office is opposite the U. S. Patent Office, and we can obtain Patents in less time than those remote from WASHINGTON.

Send MODEL OR DRAWING. We advise as to patentability free of charge; and we make NO CHARGE UNLESS PATENT IS SECURED.

We refer, here, to the Postmaster, the Supt. of Money Order Div. and to officials of the U. S. Patent Office. For circular, advice, terms and references to actual clients in your own State or County, write to

C. A. SNOW & Co.

Opposite Patent Office, Washington, D. C.

## NEW LIFE

Weak Nervous and Debilitated

TAMAR TREATMENT! The great restorative and tonic, especially prepared for men, young and middle-aged, who have, by their indiscretions, excessive indulgence, brought upon themselves nervous prostration, debility, nervous and physical weakness, producing some of the following effects: Nervousness, Debility, Dimness of Sight, Defective Memory, Flashes on the Face, Aversion to society, Want of Ambition, Melancholy, Dyspepsia, Biliousness, Loss of Power, Pains in the Back, &c., &c., for all such derangements a permanent cure is guaranteed by the use of Tamar Treatment.

Tamar Treatment Prescribed by the Leading Physicians. Read What They Say:

St. Louis, Mo., Feb. 10, 1886.

"For more than three years I have used Tamar Treatment with the best results. I recall now several cases of seminal weakness and debility with all its evil consequences I have treated during the past year, which have been cured by the use of the Tamar Treatment, and several of these cases were in the last stages. The composition of the different medicines contained in the Tamar Treatment indicate, and its effects prove it to be a specific restorative of nerve and sexual power. You are at liberty to use my letter in any way that will contribute to your pleasure or profit. There are so many nearly worthless proprietary medicines of this kind on the market (and every day is adding to their number) that when one is found to be really valuable I think it the duty of the profession to make it known."

J. Z. HALL, M. D.

617 Walnut St., St. Louis, Mo.

TAMAR TREATMENT is prescribed daily for all forms of nervous debility in both sexes as well as for checking the unnatural secret losses which cause so much loss of vitality. The medicines are, prompt in action and permanently restore those weakened by early indiscretion, excess or overwork of the brain. A number of physicians have discarded all the hypophosphites, Iodina and phosphorus formulas and invariably prescribe TAMAR TREATMENT with the best results.

TAMAR TREATMENT is composed of medicines most agreeable to the taste and well tolerated by the stomach.

TAMAR TREATMENT is sold on its merits. Each package contains all medicines necessary for ever one month's home treatment, with full and complete instructions how to exercise, diet, bath, etc., price TAMAR TREATMENT per package \$2.00; three packages \$5.00 sent prepaid and securely sealed on receipt of price.

TAMAR TREATMENT having been used so successfully in private practice and in the hospitals of St. Louis for the past fifteen years, and knowing, as we do, its wonderful curative effects, we will give the following guarantee: With each order for three packages (3 months' treatment), enclosing \$1.00, we will send one written guarantee to refund the money if the TREATMENT does not effect a cure. Packages sent C. O. D. on receipt of \$1.00, and security against loss. Send money by express, P. O. Money Order, or registered letter at our receipt. Address: DR. J. Z. HALL & Co., Sole Proprietors, 517 Walnut St., St. Louis, Mo.
